

# 2014 ASIA-PACIFIC SUMMER SCHOOL On Smart Structures Technology

Open to: Students Currently Enrolled in a Civil Engineering  
Related Graduate Program at Universities

Hosted by: National Taiwan University (NTU)

National Center for Research on Earthquake Engineering (NCREE)

Dates: July 28<sup>th</sup> – August 15<sup>th</sup>, 2014

Registration due by: May 31<sup>th</sup>, 2014

Through this 3 week program of coursework, lectures, labs and site visits, civil engineering graduate students will learn about smart structures technology in an interactive setting. The curriculum will address the hardware, software, data informatics, and applications of smart structures technology. Laboratory experiences and site visits will extend knowledge beyond the classroom, providing students with practical, first-hand experience.

Students from Japan, Korea, the US, China, India and Taiwan etc. will participate in this program. Students are expected to gain valuable experience of global engagement through emersion in a culturally rich learning environment. We cordially invite you to participate this summer school.
